You can make drinks with soda siphon !
Cocktail, Pop drinks, Cream soda mousse,
Sparkling water, Sparkling juice, Soda water

Aluminum Soda Siphon

500ml & 1000ml

Sparkling water, also called soda water or seltzer, is plain water that has carbon dioxide added to it. SODA water is good for health as alkaline food. It helps stomachic, prevent skin aging, improve one's looks and to nourish our skin. It makes drinking water just a little more fun. Some like the taste but may not want all the calories and sugar that come with drinking soda pop.

Stainless Steel Soda Siphon

INSTRUCTION FOR USE

1. Please always inspect the items to make sure it is clean and free from any damage or wear before filling your soda siphon.

2. Fill the soda siphon with water to full level with fill tube located about two-thirds the way up the bottle. You may use very cold water for best results. Insert fill tube before inserting the long plastic tube & seal into the top of the bottle.

3. Firmly screw on the head of the siphon with clockwise and taking caution not to over-tighten.

4. Insert one CO₂ charger into the cartridge holder.

5. Screw the cartridge holder onto the head of the siphon until you hear a hiss and the gas is released. Only use one charger. Do not remove cartridge holder for a minimum of one minute.

6. Shake soda siphon well. Allow charged water to 'rest' for a minimum of 10 minutes to achieve full effervescence.

7. To dispense water gently press lever and direct water towards the side of the glass. Refrigerate the soda siphon for at least one hour will give you better results. It is preferable not to keep the soda water for more than two days.

CAUTION: Only use one 8 gram CO₂ cartridge!

Soda siphon and cartridge are highly pressurized and misuse could cause harm to user and/or damage the product.

Please always keep your soda siphon and soda chargers out of the reach of children. For safety, never stand directly over the soda siphon or hold close to your body when charging it. Never expose your soda siphon to heat or extreme cold. We terminate the liabilities and responsibility for any misuse.

Home Soda Maker

Soda Siphon 1000ml

LV25

Sodamate™ home soda maker are made with safety in mind.

Soda bottles are made from a special plastic that does not explode. Instead, it expands under pressure.

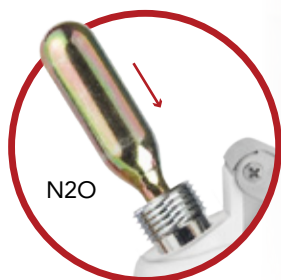

Sodamate™ home soda maker also has double safety valve that release CO₂ gas when it reaches a certain point.

Safety hole release CO₂ gas when the gas pressure is to high during gas input procedures.

Lever Style Corkscrew

FEATURES:

- Ergonomic design to remove any cork easily and effortlessly.
- Superior quality and simple to use.
- Fit for all types of bottle.
- Release cork with one lift up and down action.

LV-797A

LV-797B

1. Push buttons to remove foil seal.

3. Hold the corkscrew tight on bottle and screw into the cork gradually.

2. Lift up the handle and place the corkscrew above the bottle, aim at the cork.

4. Lift up the handle and the cork is removed.

To release cork:

Hold the corkscrew tight when the cork is inside the screw and lift up the handle. The cork will release.

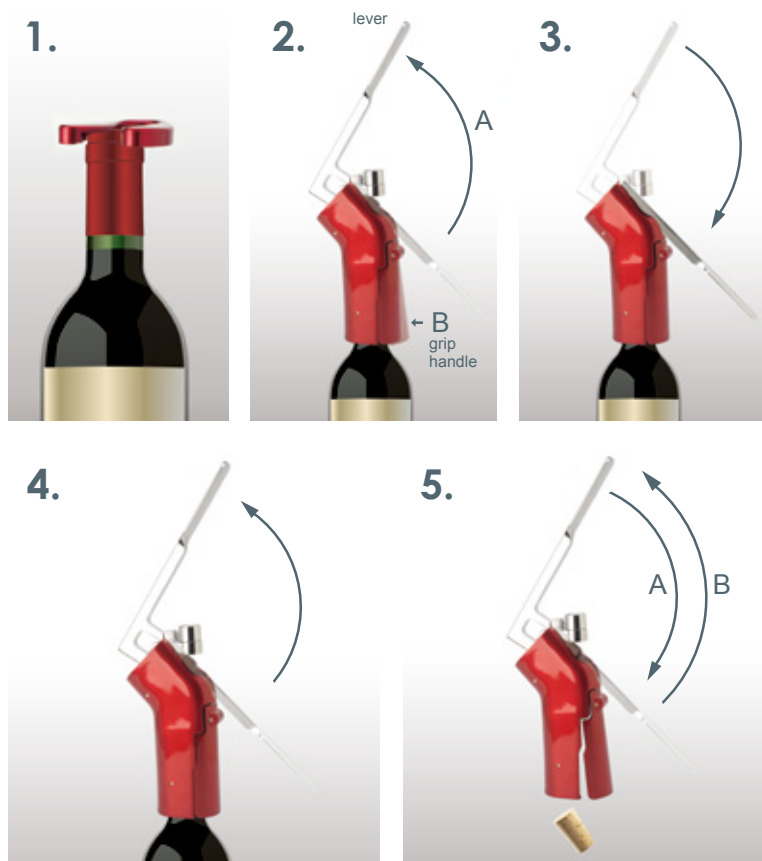

ROBOT CORKSCREW SET

WITH FOIL CUTTER &
EXTRA SCREW

Lovin lever corkscrew now has a vertical companion. And like the original Octopus, ROBOT pulls a cork in 3 seconds, ejects the cork automatically.

This ROBOT has a die-cast metal lever handle and comes in your choice of hi-sheen red racing-car finishes.

User Instructions

1. Place the foil cutter over the bottle mouth and twist the foil cutter until foil is cut.
2. Put the Robot Corkscrew over the bottle neck while the lever is at the top(A) and press down the grip handle(B).
3. Flip down the lever to spiral screw into cork.
4. Remove the cork by flip up the lever.
5. Release cork, flip lever down and up.

Foil cutter

Extra screw included

Rabbit Corkscrew

with foil cutter

- Pulls a cork in 3 seconds.
- Automatically ejects cork.
- All-metal lever and gears.
- Works on all bottle sizes and cork types.

LV798B

LV798C

LV798D

LV798E

Pulling a cork with the Rabbit is as easy as **1 2 3!**

Insert corkscrew

Pull cork

Eject cork

LV798

Corkscrew, foil cutter
& extre spiral

DIRECTIONS:

- Before pulling cork, remove foil cap with separate foil cutter included. Place on top of wine bottle. Press two sides firmly against foil cap while turning bottle (Drilling through foil caps can shorten the life of the spiral.)
- To operate: Raise lever handle and place corkscrew on bottle top. Push handle down to insert corkscrew. Squeeze bottom firmly and raise handle to remove cork. Push handle down and raise it to eject cork from spiral.
- Don't remove the cork manually from the spiral after pulling it. Always use the easy automatic cork removal.

Rechargeable Wine Opener

- Compact version.
- Just a simple press, the cork will move out.
- Another simple press, the cork ejected in a second.
- Integrated wine opener with foil cutter.
- Different color are available.
- LED keeps flashing when wine opener is being charged, stops flashing when full.

LV35

1. Integrated foil cutter removes foil seal.

2. Put wine opener above the bottle; aim at cork; press the bottom part of button and screws into the cork in bottle. The cork will lift up from the bottle. Cork is automatically removed.

3. Press upper part of button. The cork is ejected from opener within few seconds.

Indicator for number of bottle to be opened before recharging.

LV36

ELECTRIC Corkscrew

- Electric and rechargeable wine opener.
- Designed to fit all traditional wine bottles.
- Easily opens up to 30 bottles fully charged with the touch of a button!
- Operating time: 7 seconds.
- LED blue charging indication light.
- Noise: <78db
- Integrated wine opener with foil cutter base.
- Blue LED keeps flashing when operating.

LV37

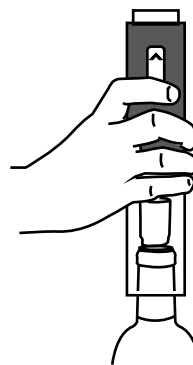

Blue LED

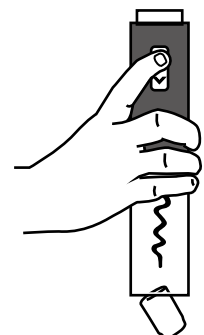

Foil cutter base

1. Integrated foil cutter removes foil seal.

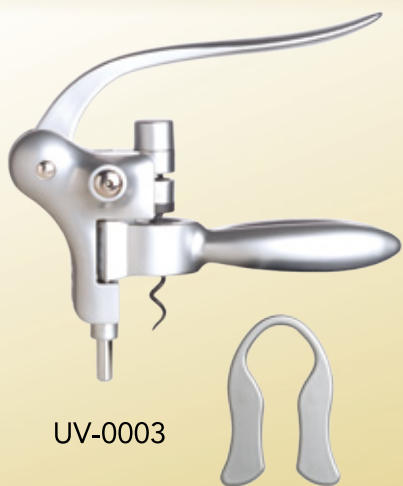

2. Put wine opener above the bottle; aim at cork; press the bottom part of button and screws into the cork in bottle. The cork will lift up from the bottle. Cork is automatically removed.

3. Press upper part of button. The cork is ejected from opener within few seconds.

MINI OCTOPUS CORKSCREW

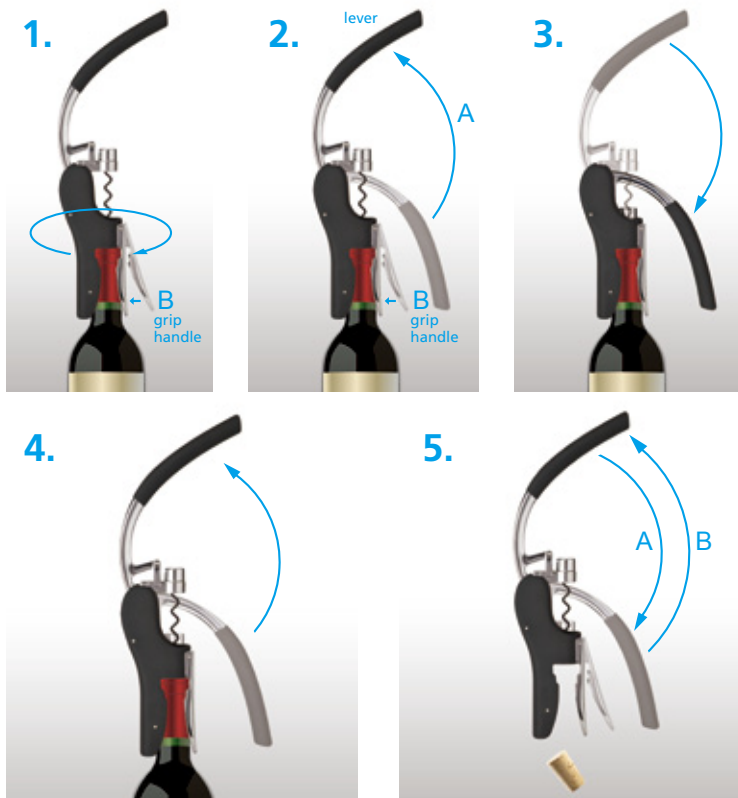

- Professional Quality
- Simple to use
- Quick as a flash to de-cork
- Ergonomic design
- Fit for all types of bottle

Extra screw
included

Built-in Foil
Cutter

User Instructions

1. Place the built-in foil cutter over the bottle mouth and press down the grip handle(B), twist the foil cutter until foil is cut.
2. Put the Deluxe Corkscrew over the bottle neck while the lever is at the top(A) and press down the grip handle(B).
3. Flip down the lever to spiral screw into cork.
4. Remove the cork by flip up the lever.
5. Release cork, flip lever down and up.

CT15

MINI OCTOPUS CORKSCREW

UV007A

- Opens a bottle in just seconds!
- Easy to use!
- Works with all winebottles!
- With integrated foil cutter!
- With integrated foil cutter and spare spiral

Remove the foil from the wine bottle with the integrated foil cutter. Put the wine opener on top of the bottle's neck and move up or down until the 2 blades (see the picture) are at the required height. Now press together and spin around one time.

Open the lever, put the corkscrew onto the bottle and press the handles together.

Hold the handles pressed and close and open the lever.

Take the corkscrew from the bottle. To remove the cork hold the handles together and close and open the lever.

Aerating Pourer

Simply insert the LOVIN Aerating Pourer into a wine bottle as you would a conventional pourer. You don't need a glass decanter or a separate aerator. When you pour the wine, you see and hear aeration happening. When you taste it, you enjoy the enhanced flavor and bouquet of perfectly aerated red wine. The LOVIN Aerating pourer is uncomplicated way to aerate wine.

Key Features and Benefits

- Aerates red wine as you pour
- Improves flavor and bouquet
- Separates for easy cleaning
- Hand wash

Ruby

ELECTRIC Wine Preserver

Lovin introduces a faster, easier, more effective way to preserve red wine. The new battery-powered Electric Wine Preserver pulls to vacuum a wine bottle in 10 to 15 seconds, preserving the wine's flavor and bouquet for a week or more. This gift set includes the Electric Vacuum Pump and three stoppers in a plastic base. Push-button wine preservation has arrived!

LV210

Key Features and Benefits

1. Elegant and ergonomic soft grip, brushed buttons
2. Easy to use - push button and preserve; No more tiring up-and-down pumping required
3. One gentle push down, the pump automatically removes the air
4. Preserves wine in just 10 to 15 seconds
5. Includes 3pcs seal stoppers
6. 4PCS AAA# 1.5V battery

Wine Saver with Seal Stoppers

Delectation to wine preservation. Elegantly shaped wine saver, which extracts the air from the opened bottle and re-seals it with a re-usable rubber stopper. Place the stopper in the bottle and extract the air from the bottle by using the Wine Saver pump. The vacuum slows down the oxidation process so that you can enjoy your wine for a longer period of time.

LV5802

LV5800

1. Insert seal stopper into the neck of the bottle.

2. Take the pump on stopper; aim at the bottle and commence pumping action.

3. To re-open, press "PUSH" button slightly to release vacuum, then remove the stopper to pour the wine.

Vacuum Pump with Seal Stoppers

Our Stainless steel Wine Saver LOVIN has an integrated vacuum indicator. This will emit a clicking sound when the correct vacuum is reached.

The excellent stainless steel quality of applying a vacuum seal to opened bottles of wine to prevent oxidation. The LOVIN features a new larger capacity stainless steel and ABS plastic pump, plus re-usable stoppers to maximize the vacuum seal and an ergonomically shaped handle.

Using the special re-usable rubber stopper and the Wine Saver LOVIN, allows you to extract the air from the opened bottle. This slows down the oxidation process, which manipulates the taste, so that you can enjoy your wine for a longer period of time.

ICE02

Wine chilling stick

How to use:

Your just-opened bottle of wine will chill and keep at the perfect temperature; that is the technology behind this freezable Wine Chill Stick.

Open your bottle, pour out about 50ml, insert the Wine Chill Stick, and pour. It will keep your favorite Riesling or Chardonnay at the perfect temperature during the party.

Keep the Wine Chill Stick frozen and ready in your freezer; it needs to freeze for at least one hour for optimal chill.
