DANKE FÜR 95 JAHRE!

Seit 1927 steht der Name koziol für Glück und Design und die originellen Produkte begeistern bis heute Menschen weltweit. In diesem November begeht das Unternehmen seinen 95. Geburtstag. Natürlich könnte man jetzt Bilanz ziehen, aber wir sagen lieber Danke an alle Mitarbeiter und Mitstreiter, an Kunden und Wegbegleiter, Kritiker und Freunde und natürlich alle Fans.

Wir bleiben selbstverständlich auch im Jubiläumsjahr nicht stehen, denn in Zeiten wie diesen sind innere Werte mehr gefragt denn je: koziol ist „Die Nachhaltigkeitsmarke“.

Wir produzieren seit seiner Gründung aus Überzeugung ausschließlich in Deutschland, was eine ressourcenschonende und umweltfreundliche Herstellung garantiert. Nachhaltigkeit war und ist schon immer ein Kernwert der Marke. Seit 2021 sind wir klimaneutral. Und seit Neuestem produzieren wir mit dem neuen, revolutionären koziol Bio-Circular-Material.

Das Sortiment wurde um zahlreiche intelligente Mehrweglösungen für den professionellen Einsatz ergänzt und entspricht den modernen Bedürfnissen nach einem nachhaltigeren Leben. Ob Take-away oder Partyservice, Catering oder der umweltfreundliche Coffee to go – die neue koziol Incentives-Kollektion bietet eine Fülle an nachhaltigen und schönen Lösungen für einen wertschätzenden Umgang mit Lebensmitteln und unserer Umwelt. Diese Produkte sind mit ihrer einzigartigen Verbindung aus Emotion und Funktion und der langlebigen Qualität Made in Germany einfach unnachahmlich.

„Im Prinzip denken wir wie ein Start-up. Nur eben mit 95 Jahren Erfahrung. Und mit dieser großen Expertise sind wir auch einzigartig im Markt. Wir helfen unseren Kunden, nachhaltiger zu agieren und stehen für einzigartige, preisgekrönte Produkte, einen verantwortungsvollen Umgang mit Ressourcen und eine umweltschonende Produktion. Glück ist Nachhaltigkeit!“

Stephan Koziol, Geschäftsführer

THANK YOU FOR 95 YEARS!

Since 1927, the name koziol has stood for happiness and design, and our original products continue to inspire people worldwide. This November, we will celebrate our 95th birthday – a great opportunity for us to thank all employees and partners, customers and companions, critics and friends, and of course the loving fans.

We are not slowing down in our anniversary year, as inner values are more important than ever in times like these: koziol is now „The Sustainable Brand“.

Since our founding, we have been producing exclusively in Germany out of conviction, guaranteeing resource-saving and environmentally friendly production, as sustainability has always been one of our core values. We have been climate-neutral since 2021 and are now producing with the new, revolutionary biocircular koziol organic material.

Numerous intelligent reusable solutions for everyday life have also been added to our product range, meeting modern needs for a more sustainable life. Whether it's takeaway, catering or the sustainable coffee to go – the koziol collection offers a wealth of sustainable and beautiful solutions for an appreciative approach to food and our environment. These products are simply one-of-a-kind with their unique combination of emotion and function and the long-lasting Made in Germany quality.

„In principle, we think like a start-up. Only with 95 years of experience. And with this great expertise, we are also unique in the market. We help our customers to act more sustainably and stand for unique, award-winning products, responsible use of resources and environmentally friendly production. Happiness is sustainability!“

BIO-CIRCULAR

ORGANIC

bio-circular

100% natürlich. Diese innovative Materialentwicklung besteht aus rein biozirkulärem Kunststoff und Holzfasern.

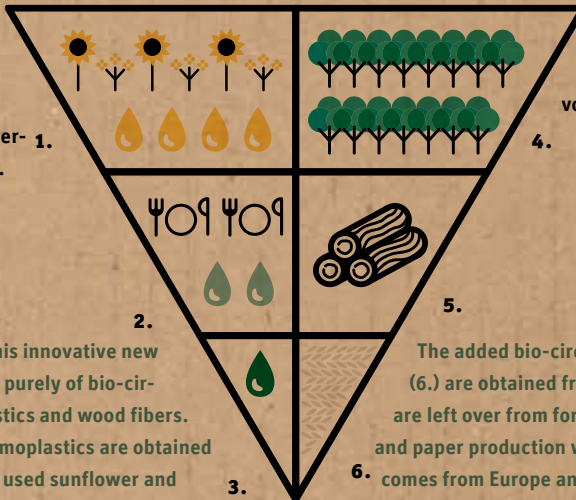

Der zirkuläre Kunststoff wird ausschließlich aus benutztem Sonnenblumen- und Rapsöl (1.) aus Industrie und Gastronomie (2.) gewonnen. Die Öle werden gesammelt und in einem speziellen Recyclingverfahren in Kunststoff umgewandelt (3.). Diese Stoffe erfahren so erstmals eine sinnvolle Weiterverwendung, bislang konnten sie nur thermisch verwertet werden. Zudem werden keine zusätzlichen Ackerflächen benötigt.

100% natural. This innovative new material is made purely of bio-circular thermoplastics and wood fibers. The circular thermoplastics are obtained exclusively from used sunflower and rapeseed oil (1.) from industry and gastronomy (2.). The oils are collected and converted in a special recycling process (3.). This is the first time that these materials have been put sensibly to further use; previously, they could only be thermally recycled. Moreover, no additional "new" resources are required.

Die zugesetzten biozirkulären Holzfasern (6.) werden aus Bäumen (4.) gewonnen, die bei der Forstpflge anfallen sowie aus Resten der Papierherstellung. Alle Hölzer (5.) stammen aus europäischem Anbau und sind FSC®-zertifiziert. Der neue Werkstoff verbindet die positiven Eigenschaften von Holz wie Isolierfähigkeit und Natürlichkeit mit den Vorteilen von Kunststoff wie Elastizität, Leichtigkeit und individuelle Einfärbbarkeit. Das Material ist frei von Melamin,

BPA und Bambus, selbstverständlich lebensmittelecht und vollständig recycelbar.

The added bio-circular wood fibers (6.) are obtained from trees (4.) that are left over from forest maintenance and paper production waste. All wood (5.) comes from Europe and is FSC®-certified. The new material combines the positive characteristics of wood, such as insulating properties and naturalness, with the advantages of thermoplastics, including elasticity, lightness and individual colorability. The material is free of melamine, BPA and bamboo, of course food-safe and fully recyclable.

CUSTOMIZED DESIGN

IHR PROJEKT

Ihr Projekt – unsere Materialempfehlung. Wir finden das für Ihr Projekt geeignete Material und produzieren klimaneutral sowie entsprechend der gesetzlichen Richtlinien. Gerne auch in Ihrer Wunschfarbe. Die dafür notwendigen Zertifizierungen werden von uns garantiert.

Your project – our material recommendation. We will find the right material for your project and produce it in a climate-neutral way and according to the legal guidelines. Gladly also in your desired color. We guarantee the necessary certifications.

IHR LOGO

Ein individueller Aufdruck macht jedes Produkt zu Ihrem ganz persönlichen Werbeartikel. Wir drucken für Sie ein- bis vierfarbig im Digital- oder Tampondruck.

YOUR LOGO

Custom prints can transform any product into a truly personal gift. We offer digital, pad or screen printing.

IHRE VERPACKUNG

Damit der Auftritt perfekt wird, sorgen wir für das richtige Drumherum mit Ihrer eigenen Verpackung. Alle Standardverpackungen von koziol sind individualisierbar. Bei der Entwicklung und Umsetzung von Sonderverpackungen sind unsere Spezialisten gerne behilflich.

YOUR PACKAGING

To ensure that everything is perfect, we create the look that ties it all together. koziol can customize any standard packaging solution. Our packaging and graphic experts will be happy to help you to develop your own specialized concept.

LEISTUNGEN SERVICES

IN-MOLD LABELING

Mit der In-Mold-Labeling Technologie bringen wir hochaufgelöste Bilder und Grafiken dauerhaft auf Ihr Produkt. Bei dieser Methode wird eine bedruckte Folie beim Spritzgießen unlösbar mit dem Produkt verbunden. Man kann aus einer Fülle von Materialien und Druckfarben auswählen. Dazu ist das Verfahren umweltfreundlich, da Folie und Produkt aus demselben Material bestehen und vollständig recycelt werden können.

IN-MOLD LABELING

With in-mold labeling technology, we bring high-resolution images and graphics permanently onto your product. In this method, a printed film is applied to the product during injection molding. You can choose from a range of materials, print colors and finishes. The process is environmentally friendly as the film and product are made of the same material and can be fully recycled.

LASERGRAVUR

Die Lasergravur ist die perfekte Methode, unsere Produkte bereits ab einem Stück zu individualisieren. Es können damit Logos oder Embleme graviert werden, ebenso sind Personalisierungen mit Namen möglich.

LASER ENGRAVING

Laser engraving is the perfect way to customize our products starting at just one piece. Products can be engraved with logos, emblems, and names.

LEISTUNGEN SERVICES

DRUCK

Ein individueller Aufdruck macht jedes Produkt zu Ihrem ganz persönlichen Werbeartikel. Wir drucken für Sie ein- bis vierfarbig in folgenden Techniken:

TAMPONDRUCK

Mit diesem schnellen und kostengünstigen Druckverfahren lassen sich Logos bis zu vier Farben auf unebener Oberfläche drucken. Es wird je nach Materialeigenschaften zwischen Normaldruck und Spezialdruck unterschieden. Der Normaldruck erfolgt unmittelbar auf dem Produkt. Beim Spezialdruck werden die Produkte entsprechend ihren spezifischen Materialeigenschaften schonend vorbehandelt.

LUXUS-RUNDUMDRUCK

Mit diesem Hightech-Druckverfahren können zylindrische und konische Formen sehr hochwertig vollflächig bedruckt werden. Diese Technik besticht durch ihre hohe Farbbrillanz und angenehme Haptik.

PAD PRINTING

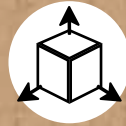

Using this fast and economical process, logos of up to four colors can be printed on uneven surfaces. Depending on the material properties, a distinction is made between normal printing and special printing. Normal printing is done directly on the product. With special printing, the products are gently pretreated according to their specific material properties.

LUXURY FULL-SURFACE PRINTING

With this high-tech printing process, cylindrical and conical shapes can be printed over their entire surface in high-quality. This technique impresses with its high color brilliance and pleasant feel.

3D INDIVIDUALIZATION

Individueller geht es nicht: Dank Wechselseinsatz können Logos, Schriften oder Bilder bereits ab 3.000 Stück als haptisches 3D-Motiv direkt in das Produkt eingearbeitet werden. Die Werbebotschaft ist so untrennbar mit dem Artikel verbunden, kann sich weder abnutzen noch abgewaschen werden.

Sieht toll aus und fasst sich gut an. Lunchboxen, Trinkflaschen, Löffel und Brettchen sind bereits mit der neuen Formentechnik ausgestattet und warten gespannt auf individuelle Designs.

It doesn't get any more individual: thanks to an interchangeable insert, your motif can be directly incorporated into products as a 3D motif. This way, the advertising message is inseparable from the product – it cannot be worn or washed of.

Looks great and feels great. Lunchboxes, water bottles, spoons and snack boards are already equipped with the newest molding technology and are anxiously awaiting new designs. Text, logo or picture motifs – almost everything is possible.

»LUNCHBOXES

»HAPPY BOARDS

»HAPPY SPOONS

Reusable solutions. It's hard to imagine modern life without takeaway food, but when it comes to packaging, uncompromisingly sustainable concepts are hard to find.

koziol offers a variety of bowls, boxes and cups that are ideal solutions.

Each piece replaces at least 1.000 disposable packages over the course of its life.

The areas of application are endless: Restaurants, companies, festivals, cities, communities and much more.

All products are made of koziol ORGANIC BIO-CIRCULAR material with FSC®-certified wood.

The material is not a compound, instead pure material that can be 100% recycled, problem-free.

All products are climate-neutral!

The products are absolutely food- and dishwasher-safe up to 100°C, BPA-free, and particularly hygienic in use. The design is unique, award-winning and the functionality is outstanding.

koziol SUPERGLAS is a series of glasses made from an exceptional, unbreakable high-tech material. A true design statement and a small revolution for gastronomy and hotels. Finally, a high-quality plastic glass for use both indoors and out!

With normal use, koziol SUPERGLAS is **practically unbreakable and seriously scratch-resistant**. Ideal for all areas where glass shards present a high risk of injury such as at the pool, at the spa, and in clubs and lounges. And it saves costs: Daily handling is made safer and easier, making it perfect for professional use.

SUPERGLAS insulates four times better than traditional glass, keeping cold drinks cool and hot drinks warm for longer. The design is timeless, as are the functionality and stability. The material is colored all the way through, making SUPERGLAS dishwasher-safe.

What's more, the customization possibilities are endless – **individualized colors with or without print, starting already from small quantities**.

MEALTIME CAN BE FUN!

The colorful kids collection inspires with cheerful designs and the loving details make every meal an experience.

All products are child-friendly, durable, stable, intuitive to use and easy to care for.

This collection is made exclusively from bio-circular plastic and FSC®-certified wood.

Of course, everything is food-safe, free of any additives, 100% recyclable and is also produced fairly and 100% climate-neutral in the Odenwald.

PU 100

EXTRA TIPPS ADDITIONAL TIPS

Und damit auch alles glatt läuft, noch ein paar Tipps extra:

Sofern es die Größe zulässt, bitte die Produkte vorzugsweise im oberen Spülkorb spülen. So werden Verformungen am besten vermieden. Produkte immer spannungsfrei in die Spülmaschine einlegen. Sollte ein Produkt sich dennoch verformen: Beim nächsten Spülen findet es meist in seine ursprüngliche Form zurück, denn Kunststoff hat ein sogenanntes „Gedächtnis“.

Stark färbende Lebensmittelreste vor dem Einräumen in die Spülmaschine kurz mit klarem Wasser abspülen. Vermeiden Sie Spülmaschinendeodorants oder Geruchsentferner, da diese zu Verfärbungen führen können. Darüber hinaus auch die Pflegehinweise der jeweiligen Spülmaschine beachten.

But to make sure that everything comes out of the machine looking just like new, here are a few additional tips:

Where size permits, please wash products in the top rack. This reduces any risk of warping. Give products ample space inside the dishwasher. Do not squeeze them into tight spaces. Products may occasionally warp during washing, but they will usually return to their original shape after the next wash – because plastic has a built-in „memory.“

To avoid contamination or discoloration, we recommend rinsing all dishes with clear water to remove any remaining food before putting them in the dishwasher. Avoid using dishwasher deodorizers or odor neutralizers as these may cause discoloration. And always carefully observe the care instructions provided for your dishwasher.

CLEANINGGUIDE FOR KOZIOL SUPERGLAS

koziol SUPERGLAS is made of an exceptional unbreakable high-tech plastic. A true design statement and a small revolution for gastronomy and hotels and the most ecological and economical solution for professional use.

The robust material reduces work for personnel and prevents accidents and injury from glass shards. koziol SUPERGLAS complies with the regulations for secure outdoor use and all areas with a glass ban.

Caring for these plastic glasses is essentially like caring for traditional glass.

To enjoy SUPERGLAS for years to come, please follow our cleaning recommendations:

- New glasses should be rinsed at temperatures above 80° either in the dishwasher or by hand to reduce tension in the glass.
- After that, please make sure that you use a detergent with a PH between 5 and 7 and rinse-aids made especially for plastic. Best results are achieved with cleaning agent Renovate® from Proton.
- Always set glasses loosely into the dishwasher and wash at a maximum of 70°C. Printed glasses up to 60°C. Avoid drying with hot air fans.
- Avoid using scouring pads or abrasive cleansers for the removal of residue. When hand washing, always use a soft sponge or dish brush.
- Soft microfiber cloths are preferred for polishing.
- Drinks containing anise like Pernod, Ricard, Raki und Ouzo can damage the material. We recommend washing the glasses directly after use.
- Milk beverages can also leave stubborn residue behind, here too rinse directly after use.
