30 years of good design

Boris Brault
Founder,
BOW GROUP

"Our mission has been consistently guided by a passion for creating products that blend innovation with timelessness, resonating deeply with users. As such, we have strengthened our entire portfolio with complementary categories and collaborated with esteemed designers to reimagine everyday objects, ensuring they seamlessly integrate into every moment of the day. This commitment has been recognized with a growing number of award wins in recent years, alongside remarkable retail and digital growth. Today, we will pursue this commitment to creativity, functionality, quality, and accessibility while promoting l'Art de vivre à la française of our French Maison de design," says Boris Brault, *LEXON President*.

QUAGLIO & SIMONELLI

Quaglio Simonelli was born from the meeting of two Italian designers: Andrea Quaglio and Manuela Simonelli. The result of the meeting between two complementary sensibilities, their products has been nourished by their history, by the creative gaze they direct on the world that surrounds them and by the mutation they love to induce on it. They design objects with a familiar appearance, contaminated by unexpected and poetic elements. Best-selling products designed for Lexon include: Mino, Mina, Luma collection, Oblio and more recently Mano, Minut, Mimi, Steli collection.

MARC BERTHIER

French Designer and Industrial Architect, Marc Berthier's career spans more than 55 years. His creations are present in the collections of many museums, including the Museum of Modern Art (MoMA) in New York, the Center Georges Pompidou and the Museum of Decorative Arts in Paris, the Cooper Hewitt and the Smithsonian design museum in New York. York, the Plasticarium ADAM in Brussels... Marc Berthier imagined our Tykho radio, an iconic and timeless object that made the cover of Time magazine in 2000.

ALAIN BERTEAU

Alain Berteau is a Brussels-based architect, product designer and professor. Alain's work is recognized for its combined simplicity and decisive functional innovation. Best-selling products designed for Lexon include the Softpower collection.

NEIL POULTON

Established since 1992 in France, neil poulton is a globally recognized for his work on consumer electronics products and lighting equipment. His trademarks are minimalist forms for everyday use, blending simple look and technical innovation. Together with Lexon, neil is reinventing daily objects by embedding high quality performance into iconic shapes.

GUILLAUME DELVIGNE

Guillaume started with prestigious designers like George Sowden and Marc Newson. He went solo, collaborating with both industrialists and craftsmen. From his meeting with Lexon comes the Nomaday collection, combining purity of lines and innovation.

NATACHA POUTOUX & SACHA HOURCADE

natacha.sacha. is a duo of talented French designers with a large set of skills. Their experiences in furniture, architecture and attention to sustainability is providing uncompromised complementary to all objects of the distinctive Horizon collection.

NELSON FOSSEY

Nelson Fossey imagines concepts where technology is at the core of user experience. His collaboration with Lexon makes it possible to offer products with an apparent simplicity, a playful character and remarkable ease of use. His first creation for Lexon: Orbe

LIDIA GOMEZ

Lidia Gómez is a talented Spanish Industrial Designer recognized for her sharp and minimalist approach to design. Her tech background has facilitated the collaboration with Lexon to develop surprising, yet consumerfriendly objects with the perfect balance of aesthetics and function.

ADRIAN & JEREMY WRIGHT

The British brothers have a background in engineering and a solid understanding of the manufacturing process. Their approach is driven by a desire to reconsider and simplify how objects look and function. Best-selling products designed for Lexon include the Flip collection.

STEFANIE KAY

Stéfanie Kay is a French & British young designer from ECAL, the renowned Swiss school of art & design. Her work has already been honored with several awards and her collaboration with Lexon is bringing sleek consumer objects to the market with a special focus on user experience and value-added features.

LEXON®

As well as other designers with whom Lexon had the pleasure to collaborate with, including:

Philippe Starck, Pauline Deltour,
Shoji Ito, Ionna Vautrin, Mathieu Lehanneur, Eugeni Quitllet,
Elise Berthier & Anne Klepper, José Lévy,
Marc Venot, Theo Williams and Claudio Gatto.

CONIC CLOCK

*Radio alarm clock with
FM & built-in Bluetooth® speaker*

Elevate your mornings with Conic Clock, a sleek alarm clock that features an FM radio and a Bluetooth® speaker. This innovative object combines the timeless charm of the radio with the modern convenience of a speaker. Set dual alarms to wake up to your favorite radio station or choose from a selection of melodies and natural sounds for a gentle start of your day. The large LCD display provides a clear view of the time, indoor temperature, and relative humidity. With touch controls for seamless access to Bluetooth® and FM radio modes, as well as device settings. Conic Clock isn't just a functional addition to your bedside; it's a decorative piece that boasts an aluminum cone-shaped base supporting a circular speaker, adding a touch of sophistication to your space.

Specs

- Full black LCD display
- Alarm features/settings: Dual alarm with radio or 9 melodies & natural sounds - Snooze
- FM radio & Bluetooth® speaker
- Indoor temperature & hygometry

- Rechargeable via USB-C
- Playtime: up to 12h
- Material: Anodized Aluminum - ABS
- Dimensions: Ø13.5 x 15.9 cm / Ø5.31 x 6.26"
- Weight: 400 gr / 0.88 lbs

RAY CLOCK

Alarm clock with indoor thermometer and hygrometer

Wake up in style with Ray Clock, our state-of-the-art LCD alarm clock. Featuring a distinctive striped aluminum body and a deep, pure black VA LCD display, Ray Clock also includes a built-in temperature and hygrometry sensor for ultimate comfort. Effortlessly control your alarm by simply tilting the clock on its base, and enjoy a wide variety of sounds and melodies. Its built-in battery, rechargeable via USB-C, provides up to 6 months of power. The special night mode ensures an undisturbed sleep, and a simple touch allows you to check the time whenever needed.

ON

OFF

Keith Haring™

Drawing inspiration from Keith Haring's artistic style, characterized by bold lines, vibrant colors, and symbolic icons, Lexon has skillfully translated Haring's vision into tangible, everyday objects. This collaboration pays homage to Haring's belief that art should be accessible to all, bringing his iconic imagery into the realm of practical, everyday use. This partnership has been done in collaboration with Artestar, a global licensing agency, and creative consultancy representing high-profile artists, photographers, designers, and creatives.

The **Lexon x Keith Haring** collaboration revolves around **4 products** (Mino+, Flip+, Mina M, Tykho 3) declined into **3 artworks** and **3 colors** each.

Available in individual gift box or limited-run gift sets

Pursuing our commitment to blend design and tech, we have reimagined our most popular objects to feature some of Jean-Michel Basquiat's iconic works. This exclusive collaboration embraces Lexon's inherently forward-thinking nature, seamlessly merging it with the artist's bold and exuberant style. This partnership has been done in collaboration with Artestar, a global licensing agency, and creative consultancy representing high-profile artists, photographers, designers, and creatives.

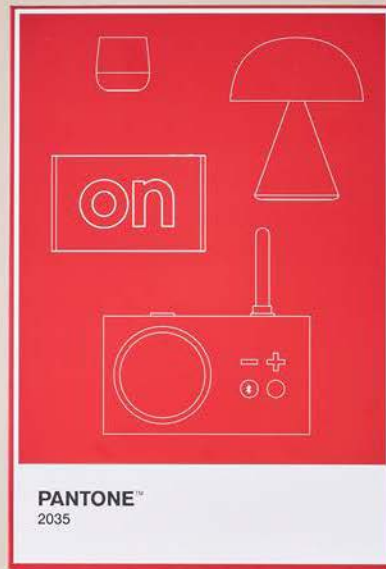

The **Lexon x Jean-Michel Basquiat** collaboration revolves around **4 products** (Mino+, Flip+, Mina M, Tykho 3) declined into **4 artworks**.

Available in individual gift box or limited-run gift sets

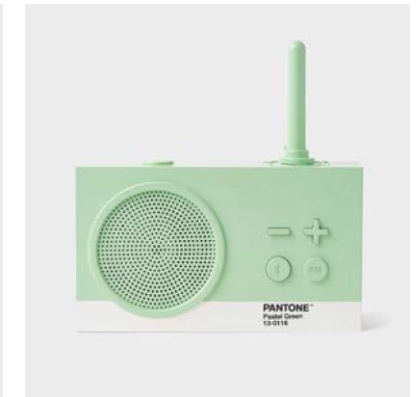

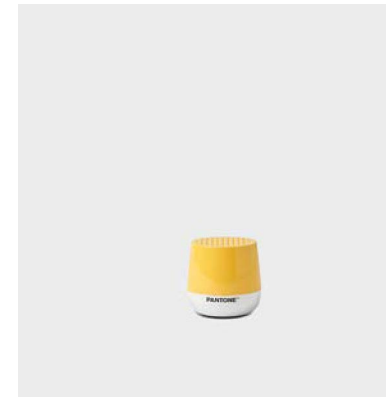

PANTONE®

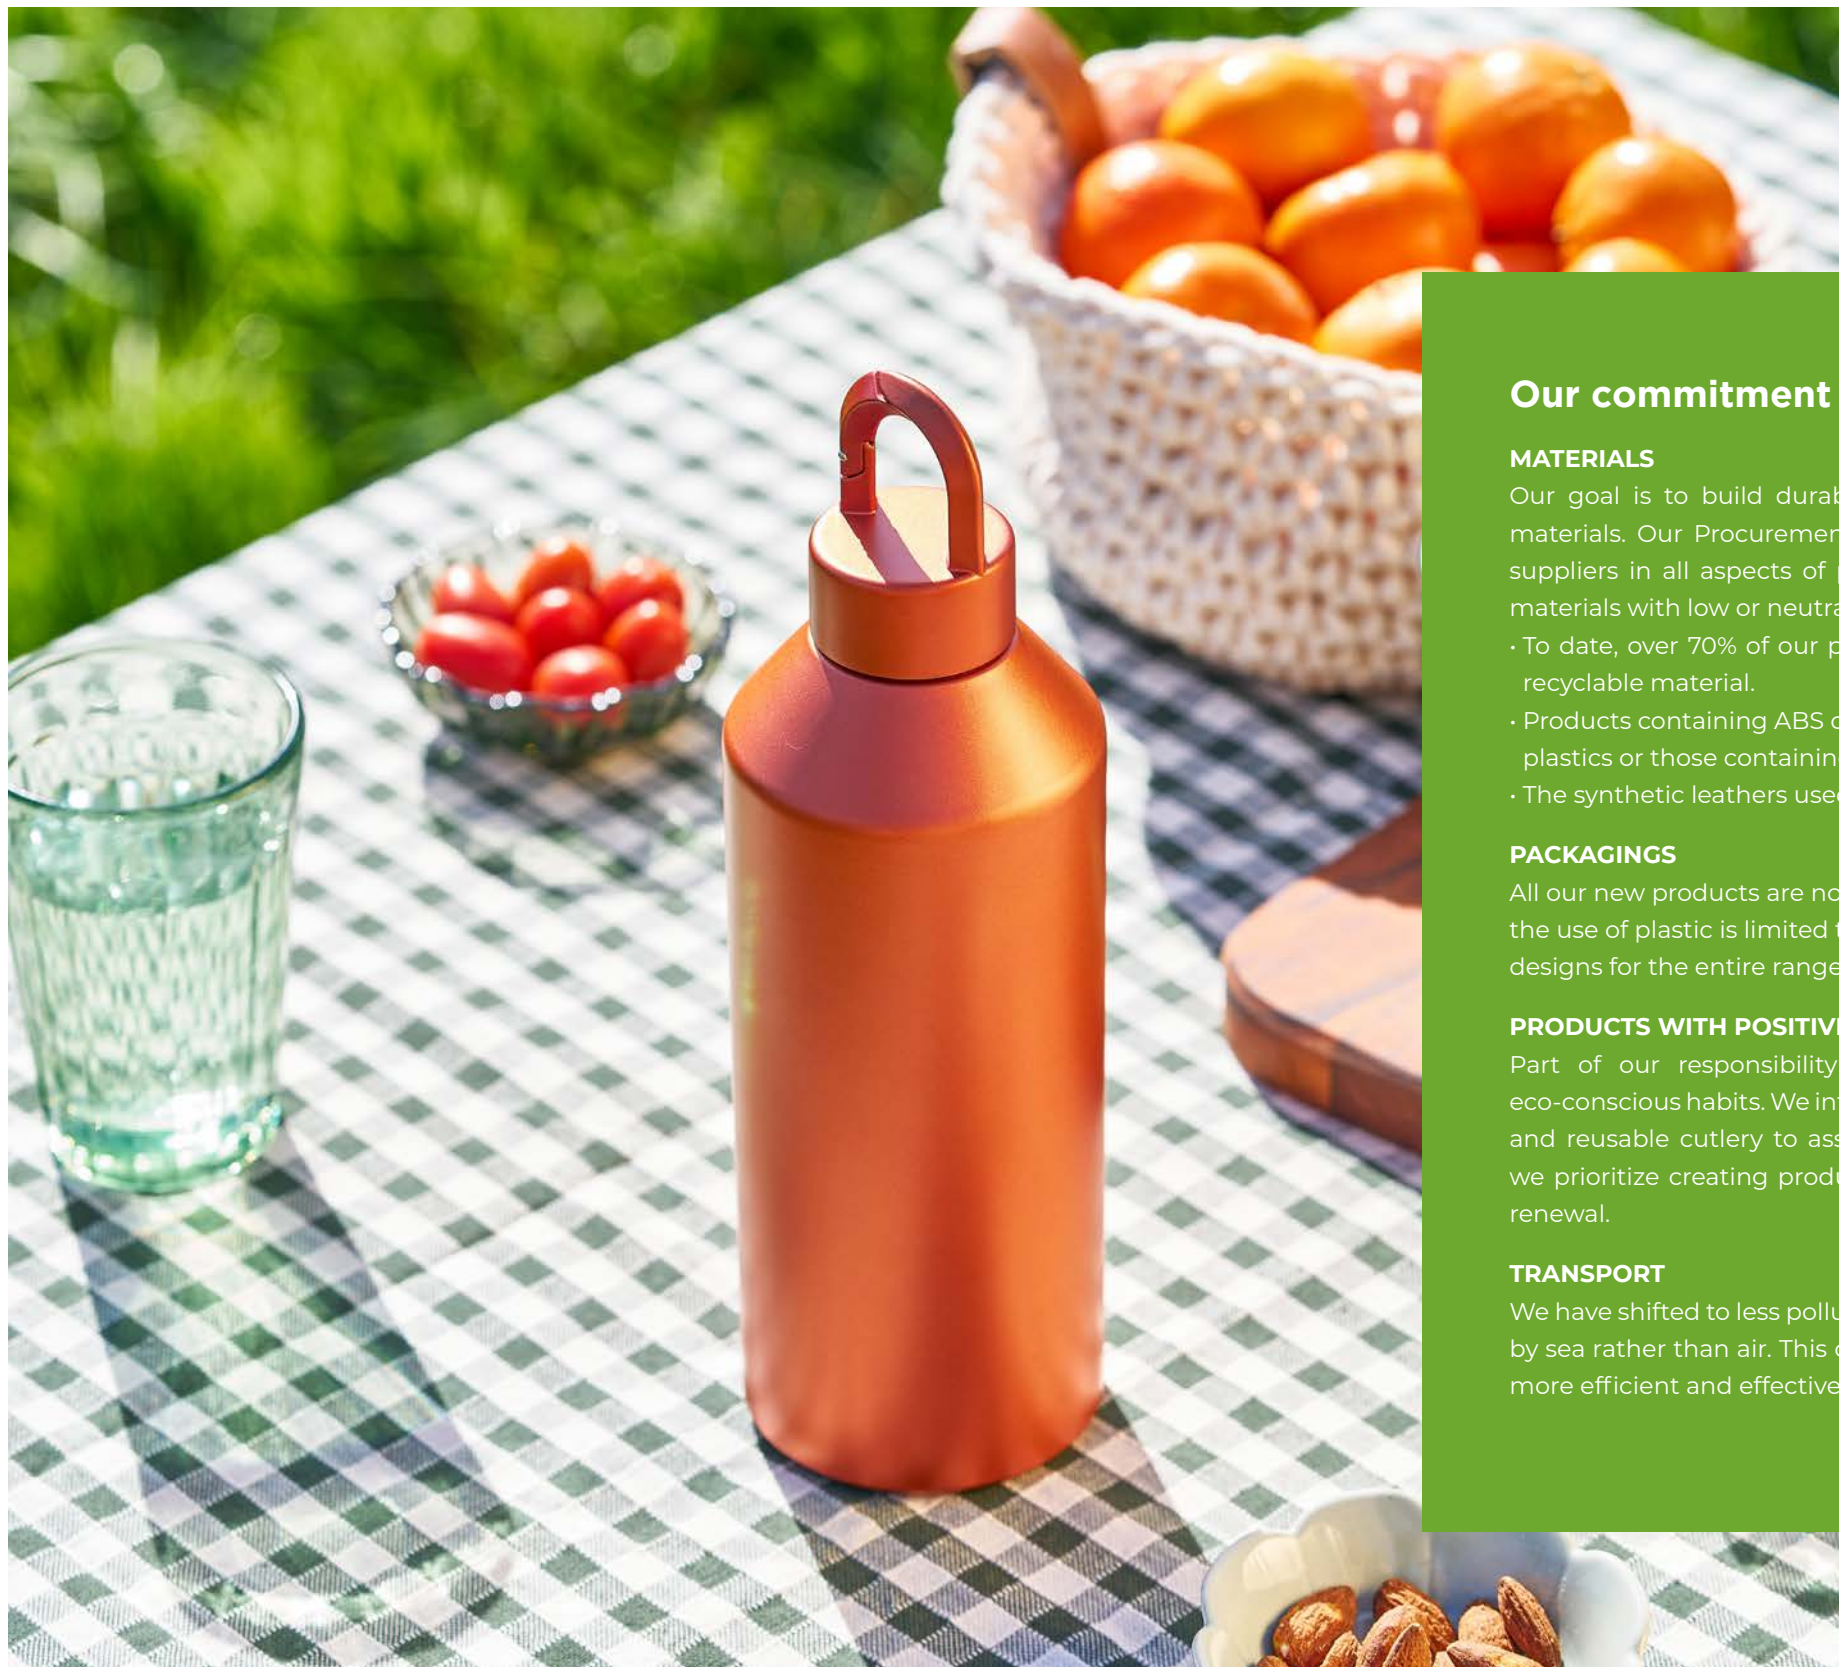

Pantone provides the universal language of color that enables color-critical decisions through every stage of the workflow for brands and manufacturers. More than 10 million designers and producers around the world rely on Pantone products and services to help define, communicate and control color, from inspiration to realization. Color is a vital affirmation of who we are, and living with our favorite colors is the utmost form of self expression. Pantone transforms insight from the world's color authority into outstanding designs for everyday living.

The **Lexon x Pantone** collaboration revolves around **5 products** (Mino+, Flip+, Mina M, Tykho 3, Orbe) declined into **6 colors**.

Available in individual gift box or limited-run gift sets

Environmental responsibility

Our commitment to sustainability *includes several missions:*

MATERIALS

Our goal is to build durable Lexon products made from recycled and low-impact materials. Our Procurement team is committed to embracing circularity with our key suppliers in all aspects of product design. Whenever possible, we prioritize the use of materials with low or neutral carbon footprint.

- To date, over 70% of our products are partially or entirely made of aluminum, a highly recyclable material.
- Products containing ABS or polycarbonate are in the process of transitioning to recycled plastics or those containing already recycled elements.
- The synthetic leathers used are already environmentally friendly and vegan

PACKAGINGS

All our new products are now protected by 100% recyclable molded cardboard cases, and the use of plastic is limited to 100% recyclable PET. The transition to these new packaging designs for the entire range will be completed by 2024.

PRODUCTS WITH POSITIVE IMPACT

Part of our responsibility is to help consumers make better choices and adopt eco-conscious habits. We introduce impactful items such as reusable bottles, metal straws, and reusable cutlery to assist them in doing so. At the core of our strategic planning, we prioritize creating products with a long life cycle, eliminating the need for frequent renewal.

TRANSPORT

We have shifted to less polluting transportation methods, primarily shipping our products by sea rather than air. This optimization of containers in terms of size and points ensures more efficient and effective transportation.

LEXON®

BOW Group with its 4 offices around the world - Paris, Geneva, Miami and Shenzhen - is a global player and multi-skilled platform with design, development, manufacturing and distribution capabilities, which offers solutions answering the needs of our modern lifestyles. With more than 2 million pieces sold every year, BOW aims to become a world leader in lifestyle products and accessories in all their forms: connected, design, art; with its two consumers brands Lexon and MyKronoz, its two retail concepts that are Legacy and Musart, as well as BOW Industries, its R&D center that owns 70 design patents.

CONNECTED *objects*

Founded in 2013, MyKronoz focuses on consumer IoT with a wide portfolio spanning from wearables, mainly with activity trackers and hybrid watches, as well as smart products for the home. To date, our Swiss brand has sold 3M of connected devices with its own cloud architecture and proprietary mobile app. Over the past three years, MyKronoz has won 3 Red Dot Design Awards and 2 iF Design Awards, proving its expertise in designing smart objects and meaningful experiences that enhance people's lives.

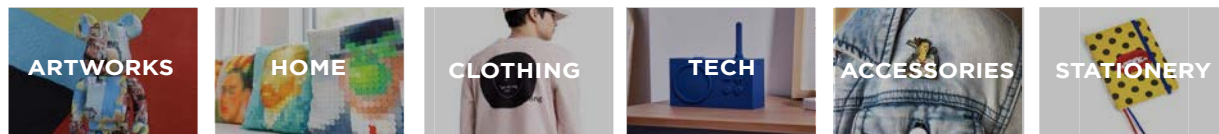

mykronoz.com

ART *objects*

Musart is a fast-growing art marketplace to buy original artworks and licensed products. Since its inception in 2014, the mission of this online destination is to make art accessible, giving anyone the opportunity to own a piece of museum. Partnerships with world-class institutions and cultural organizations allow Musart to bring not only exclusive and authentic items, but also, to honor iconic artists.

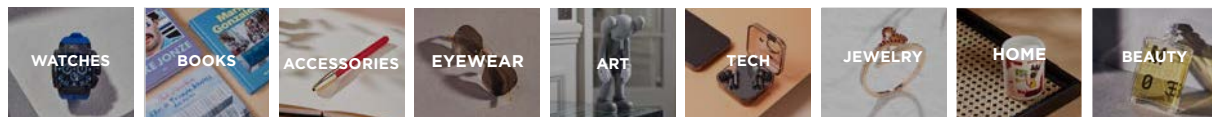

musart.com

LUXURY *objects*

LEGACY

Legacy is an exclusive hybrid concept store boasting a sharply curated selection of products comprising multiple categories such as watches, jewelry, art, tech, books, eyewear, beauty and more. We work both with well-established brands and young emerging talents to offer a unique selection of exceptional items and creations.

store-legacy.com

LEXON®

Design *objects*

Since its creation in 1991, Lexon has relentlessly pushed the limits and created a difference in the world of design while remaining true to its commitment to make small objects useful, beautiful, innovative and affordable. Whether in electronics, audio, office, leisure and travel accessories, Lexon has established a special relationship with creativity and partnered with the best designers around the world to create timeless collections of lifestyle products. Today, with more than 30 years of existence, more than 235 awards, collaboration with some of the most renowned designers, a retail presence in more than 90 countries across the Globe, Lexon has truly established itself as a worldly-known French design brand.
